### Solomon's Temple

Spanning the course of his career, this book brings new light to Kepler's vitalistic views and their central place in his world picture. It challenges our view of Kepler as a nascent mechanical philosopher who fell back on an older form of physics.

Dreams are the currency of Okri's writing, particularly in this first book of poems, *An African Elegy*, but also in his books of short stories and prize-winning novel *The Famished Road*. Okri's dreams are made on the stuff of Africa's colossal economic and political problems, and reading the poems is to experience a constant succession of metaphors of resolution in both senses of the word. Virtually every poem contains an exhortation to climb out of the African miasma, and virtually every poem harvests the dream of itself with an upbeat restorative ending' - Giles Foden, *Times Literary Supplement*

This book offers unique insights into the Psalms and sketches a variety of interpretive possibilities. The exposition of Psalm texts against the background of their different historical and/or cultic settings in the ancient Near East sets a firm basis for their reapplication in the liturgy today. In the history of interpretation the Psalms have also proven themselves to be natural texts for liturgical use. This scholarly effort thus portrays in various ways the importance of the Psalms for their reviving interpretation and application in the liturgy. Contributors include: Marcel Bernhard, Georg P. "Celia Loughton Thaxter (1835-1894) was born in Portsmouth, NH. When she was four, her father became the lighthouse keeper on White Island in the Isles of Shoals. After resigning his post eight years later, he built a resort hotel on Appledore Island in Maine. The first of its kind on the New England coast, the hotel became a gathering place for writers and artists during the latter half of the 19th century. In her last year of life, Celia published this work, in which she lovingly describes her Appledore garden and its flowers. The flowers she grew in her cutting garden filled her own rooms and those of the hotel, and this work became famous for its descriptions of the old-fashioned flowers she grew there. Her island garden, a plot that measured 15 feet square, has been re-created and is open to visitors."

Exploring Ancient Skies brings together the methods of archaeology and the insights of modern astronomy to explore the science of astronomy as it was practiced in various cultures prior to the invention of the telescope. The book reviews an enormous and growing body of literature on the cultures of the ancient Mediterranean, the Far East, and the New World (particularly Mesoamerica), putting the ancient astronomical materials into their archaeological and cultural contexts. The authors begin with an overview of the field and proceed to essential aspects of naked-eye astronomy, followed by an examination of specific cultures.

The book concludes by taking into account the purposes of ancient astronomy: astrology, navigation, calendar regulation, and (not least) the understanding of our place and role in the universe. Skies are recreated to display critical events as they would have appeared to ancient observers - events such as the supernova of 1054, the 'lion horoscope' or the 'Star of Bethlehem.' Exploring Ancient Skies provides a comprehensive overview of the relationships between astronomy and other areas of human investigation. It will be useful as a reference for scholars and students in both astronomy and archaeology, and will be of compelling interest to readers who seek a broad understanding of our collective intellectual history.

This book offers essays on both canonical and non-canonical German-language texts and films, advancing ecocritical models for German Studies, and introducing environmental issues in German literature and film to a broader audience. This volume contextualizes the broad-ranging topics and authors in terms of the Anthropocene, beginning with Goethe and the Romantics and extending into twenty-first-century literature and film. Addressing the growing need for environmental awareness in an international humanities curriculum, this book complements ecocritical analyses emerging from North American and British studies with a specifically German Studies perspective, opening the door to a transnational understanding of how the environment plays an integral role in cultural, political, and economic issues.

Tropic of Capricorn shocked readers when it was published in 1939. A mixture of fiction and autobiography, it is the story of Henry V. Miller who works for the Cosmodemonic telegraph company in New York in the 1920s and tries to write the most important work of literature that was ever published. Tropic of Capricorn paints a dazzling picture of the life of the writer and of New York City between the wars: the skyscrapers and the sewers, the lust and the dejection, the smells and the sounds of a city that is perpetually in motion, threatening to swallow everyone and everything. 'Literature begins and ends with the meaning of what Miller has done' Lawrence Durrell 'The only imaginative prose-writer of the slightest value who has appeared among the English-speaking races for some years past' George Orwell 'The greatest American writer' Bob Dylan Henry Miller (1891-1980) is one of the most important American writers of the 20th century. His best-known novels include Tropic of Cancer (1934), Tropic of Capricorn (1939), and the Rosy Crucifixion trilogy (Sexus, 1949, Plexus, 1953, and Nexus, 1959), all published in France and banned in the US and the UK until 1964. He is widely recognised as an irreverent, risk-taking writer who redefined the novel and made the link between the European avant-garde and the American Beat generation.

THE COMPLETE ORIGINAL EDITION An utterly revelatory work. Unprecedented in scope, detail, and ambition. In "Lost Tribes and Promised Lands," celebrated historian and cultural critic Ronald Sanders offers a compelling and ideology-shattering history of racial prejudice and myth as shaped by political, religious, and economic forces from the 14th Century to the present day. Written with clear-eyed vigor, Sanders draws on a broad history of art, psychology, politics, and religion to inform his striking and soundly-reasoned assertions. "Lost Tribes and Promised

Lands" nimbly zig-zags through space and time, doggedly chipping away at the myopic history of discovery and righteous conquest that has been reiterated for decades by the same ideological forces responsible for centuries of mythological prejudice and racial strife. Placing 14th Century Spanish intolerance (specifically anti-Semitism) as the origins of American racism toward African and Native Americans, Sanders elegantly weaves complex threads of colonial economics, religious exceptionalism, and xenophobia into a heady and often-infuriating thesis on the history of racism. Finally back in print in a complete and cost-accessible edition (when the book was out of print, demand for this important work was so intense that used copies sold for thousands of dollars). Find out why "Lost Tribes and Promised Lands" is a gripping and hegemony-exploding treatise on the history of race in the New World.

Anyone deeply interested in converts seeks an exposition of the Catholic Faith which not only defines each article of the Creed and each doctrine of the Church, but which also gives an explanation and a reason for the doctrine," writes Fulton J. Sheen in the Foreword to this classic of religious instruction. "Such an ideal is beautifully satisfied in a Catechism written by one of our zealous missionary Bishops, Most Reverend Louis L. R. Morrow, S.T.D., Bishop of Krishnagar. The presentation is such as to satisfy the mentality of both children and adults, and is even not beyond an excellent review for those who have studied both Dogmatic and Moral Theology." ### **Voices of the Land**

This book offers a fresh contextual reading of Paradise Lost that suggests that a recovery of the vital intellectual ferment of the new science, magic, and alchemy of the seventeenth century reveals new and unexpected aspects of Milton's cosmos and chaos, and the characters of the angels and Adam and Eve. After examining the contextual references to cabalism, hermeticism, and science in the invocations and in the presentation of chaos and Night, the book focuses on the central stage of the epic action, Milton's unique cosmos, at once finite and infinite, with its re-orientation of compass points. While Milton relies on the new astronomy, optics and mechanics in configuring his cosmos, he draws upon alchemy to suggest that the imagined prelapsarian cosmos is the crucible within which vital re-orientations of authority could have taken place.

Anna Laetitia Barbauld (nee Aikin) (1743-1825) was an English poet and author. In 1773 she published a volume of miscellaneous Poems, which was very successful, and collaborated with her brother, Dr John Aikin, in a volume of Miscellaneous Pieces in Prose. In 1795 she published an edition of Mark Akenside's Pleasures of Imagination, with a critical essay; two years later she edited William Collins' Odes;
