For trainers free additional material of this book is available. This can be found under the "Training Material" tab. Log in with your trainer account to access the material. Note: This book is available in several languages: English, Dutch. An increasing number of companies are working in a project-like manner, using the PRINCE2 project management method. The advantages of a standard method are great: a uniform method of working and terminology makes projects comparable, transferable and orderly. Moreover, PRINCE2 has additional qualities, such as the standard no go/go decision with each stage, the Business Case at the centre of the

project and clear agreements about who is responsible for what. The book gives a faithful representation of the 2009 Edition of the PRINCE2 methodology, with many lists serving as reference material for all project types and sizes. Furthermore, as the content of the book covers all specs for the PRINCE2 Foundation exams, it can serve as a good basis for the PRINCE2 Foundation exams. The three authors of this title have successfully combined their tremendous experience and made this available in a structured manner to those who are involved in controlling, designing or managing projects. And whatever they missed was added by a team of expert reviewers. The content for this book is also intended for everyone doing projects in real world, it covers more than the minimum reference that is necessary for the Foundation exam. Therefore it is also very useful as a solid starting point for anyone studying for the PRINCE2 Practitioner exam. Available in English and Dutch.

Internal Controls Policies and Procedures

Pharmacovigilance Medical Writing covers the preparation of pharmacovigilance documents for all stages of the drug development process (i.e. from clinical development through to applications for marketing authorisations to the post-marketing stage). For each document, the book presents a review of the regulatory framework that governs the content of the document, followed by practical guidance (e.g. scheduling, source data, department/functions involved in document preparation/review, appropriate timelines and planning activities),

ending with a generic model document compliant with the current guidelines, which can be modified to meet specific company and product requirements.

Childrens Advocacy Center professionals face extraordinary challenges as they dedicate their working lives to helping children who have made allegations of sexual and physical abuse. Effective CACs employ a multi-disciplinary team approach to the investigation, treatment, and prevention of child sexual abuse. But we know that child abuse allegations are often settled in the courtroom, and the road toward the courtroom can be confusing and complicated for CAC professionals and their centers, which often lack qualified and competent legal counsel to pave their way. This book is a collection of Legal Letters written by Attorney Andrew Agatston to CACs, child advocates and detectives that establishes a path toward becoming Legal Eagles for the children they serve. "In practical understandable prose, Andrew Agatston addresses many of the legal challenges facing Childrens Advocacy Centers. Executive directors, forensic interviewers and others who work in or with a CAC will find this book to be of great assistance." -- Victor Vieth, Director, National Child Protection Training Center "The Childrens Advocacy Center model has revolutionized the United States response system to child sexual abuse, and this shift has dramatically impacted the legal systems response to these children, the programs which serve them, and the records associated with this service. This book provides an outstanding overview of numerous challenging legal situations which CACs may face in this environment. While focused on the perspective of current practice in the State of Georgia, these challenges are universal, and this comprehensive compilation, written in an easy to understand format, is a must have for every CAC and its legal counsel." -- Chris
