This title provides all the information the reader will need to pass the City & Guilds level 2 diploma in hairdressing and barbering.

Professional Capital

Science for Hairdressing Students, Third Edition, has been revised in order to conform to recent examination demands and the more integrated approach to teaching applied science to hairdressing students. It is organized in such a manner as to make it a self-teaching text. All the information is broken up into small study topics with a glossary-index to guide readers. At the end of the book is a huge selection of test questions. The book begins with a discussion of the changes that people want when they come to the salon. This is followed by separate chapters on hairdressing techniques such as shampooing, coloring, lightening, waving, setting, and drying. Subsequent chapters discuss scalp and skin treatments; chemicals used in the salon; creating ideal salon atmosphere, temperature, and lighting; and safety and hygiene in the salon. Also discussed are the parts and functions of the human body; personal hygiene for hairdressers; and first aid for emergencies and accidents. This book is suitable for students studying for: City and Guilds of London Institute Craft Course (Basic 760-1), City and Guilds of

London Institute Craft Course (Advanced 760-2), Qualifying Examinations of Hairdressing Council, and American State Review Boards (Cosmetology).

Hairdressing: The Foundations, Fifth Edition is the official guide to Level 2 Hairdressing. Now updated to reflect the current standards. It will be a complete course companion for those studying their Level 2 qualification. Chapters clearly demonstrate each unit title and assessment material will be provided at the end of that chapter to meet the knowledge requirements for that unit. The pedagogical structure has been regenerated and modernised. Written in a friendly and easy to follow manner. Foundations will also include artwork provided by industry leading figures such as Toni and Guy. Hairdressing: The Foundations remains the number one text for those wishing to seek a qualification at Level 2 Hairdressing.

The future of learning depends absolutely on the future of teaching. In this latest and most important collaboration, Andy Hargreaves and Michael Fullan

show how the quality of teaching is captured in a compelling new idea: the professional capital of every teacher working together in every school. Speaking out against policies that result in a teaching force that is inexperienced, inexpensive, and exhausted in short order, these two world authorities--who know teaching and leadership inside out--set out a groundbreaking new agenda to transform the future of teaching and public education. Ideas-driven, evidence-based, and strategically powerful, Professional Capital combats the tired arguments and stereotypes of teachers and teaching and shows us how to change them by demanding more of the teaching profession and more from the systems that support it. This is a book that no one connected with schools can afford to ignore. This book features: (1) a powerful and practical solution to what ails American schools; (2) Action guidelines for all groups--individual teachers, administrators, schools and districts, state and federal leaders; (3) a next-generation update of core themes from the authors' bestselling book, "What's Worth Fighting for in Your School?" [This book was co-published with the Ontario Principals' Council.].
