INSEAD Business School in France, and Jacob Cohen is based at MIT Sloan School of Management in the USA. This book offers a rigorous, yet accessible, treatment of contemporary financial reporting practice. Examples are drawn from a broad range of companies to illustrate key concepts. Particular emphasis is given to the latitude and flexibility granted to managers in reporting financial performance, and the steps that financial statement readers can take to identify potential trouble areas in the accounts. Topics include the analysis and interpretation of the three principal financial statements, revenue recognition, inventory accounting, receivables and bad debts, accounting for long-term assets, provisions and contingencies, income taxes, and the accounting for mergers and acquisitions. A unique feature of this book is the seamless way in which it deals with differences in U.S. GAAP and IFRS. Both regimes are covered simultaneously, i.e. when a topic is discussed, including the relevant journal entries and disclosures, the discussion applies equally to GAAP companies and to IFRS companies. It doesn't matter whether the company used in a given example is from the U.S., Europe, or elsewhere. Thanks to the ongoing GAAP/IFRS convergence project, the two regimes are close enough to allow for a somewhat generic approach that allows for coverage of both regimes at the same time. In this way, the examples that are covered in the book are relevant to all readers, regardless of which regime dominates in their business environment. The content of this book has been classroom tested over the past 20 years at INSEAD with the MBA class which has students from 80 different countries.

Praise for Financial Statement Analysis A Practitioner's Guide Third Edition "This is an illuminating and insightful tour of financial statements, how they can be used to inform, how they can be used to mislead, and how they can be used to analyze the financial health of a company." -Professor Jay O. Light Harvard Business School "Financial Statement Analysis should be required reading for anyone who puts a dime to work in the securities markets or recommends that others do the same." -Jack L. Rivkin Executive Vice President (retired) Citigroup Investments "Fridson and Alvarez provide a valuable practical guide for understanding, interpreting, and critically assessing financial reports put out by firms. Their discussion of profits-'quality of earnings'-is particularly insightful given the recent spate of reporting problems encountered by firms. I highly recommend their book to anyone interested in getting behind the numbers as a means of predicting future profits and stock prices." -Paul Brown Chair-Department of Accounting Leonard N. Stern School of Business, NYU "Let this book assist in financial awareness and transparency and higher standards of reporting, and accountability to all stakeholders." -Patricia A. Small Treasurer Emeritus, University of California Partner, KCM Investment Advisors "This book is a polished gem covering the analysis of financial statements. It is thorough, skeptical and extremely practical in its review." -Daniel J. Fuss Vice Chairman Loomis, Sayles & Company, LP

### **Accounting Ethics**

Finance and Accounting for Nonfinancial Managers, Third Edition, introduces the reader to financial terminology, relates financial measures to operating information, enables the student to understand and apply financial measures to operating performance, and ties all of this to the current business environment. Today's managers, whether supervisors or senior executives, are expected to understand and use financial and operational measures, prepare and utilize budgets, respond to inquiries about the financial consequences of actions taken by them or by their department or team, and understand and use financial and accounting terminology—the common language of business measurement. Written in a conversational, easy-to-understand tone, the course treats finance and accounting from the perspective of users of financial information—it enhances their ability to communicate effectively with subordinates, other managers, senior executives, and accounting and finance professionals. It offers managers the ability to use and analyze financial information to improve the performance of their operations and to identify—and avoid—potential problems. The third edition includes discussion of the continuing transition of financial reporting to an international standard as well as consideration of the effects on accounting and

Accounting, by Garrison, Noreen and Brewer. The Noreen solution presents integrated and proven solutions designed to help attain course goals of student readiness, comprehension of content, and application of key concepts in the managerial accounting course, while addressing the needs of instructors who do not wish to teach the financial accounting-oriented content that is included in the Garrison solution. Of the three programs in the Garrison franchise (the Brewer solution, the Garrison solution, and the Noreen solution), the Noreen solution is the most pure management accounting content. The other two programs contain greater coverage of financial accounting topics. Managerial Accounting for Managers 3e is geared towards professors who love Garrison's market-leading managerial accounting content but prefer to approach their course by eliminating the debits and credits coverage. The Noreen solution includes the managerial accounting topics such as Relevant Costs for Decision Making, Capital Budgeting Decisions, and Segment Reporting and Decentralization, however, the job-order costing chapter has been extensively rewritten to remove all journal entries. Furthermore, the chapters dealing with process costing, the statement of cash flows, and financial statement analysis have been dropped to enable professors to focus their attention on the bedrocks of managerial accounting—planning, control, and decision making. McGraw-Hill's Connect Plus Accounting offers a complete digital solution combines all the great features of Connect Accounting, along with access to an online version of Managerial Accounting for Managers 3e, so that students can easily refer back to the text for review and guidance. This media rich

eBook links directly to tutorials and online resources and offers additional functionality like taking notes and highlighting key passages for reviewing later. Contained within Connect Plus Accounting is McGraw-Hill's adaptive learning system, LearnSmart, which is designed to help students learn faster, study more efficiently, and retain more knowledge for greater success. In addition, Interactive Presentations deliver learning objectives in an interactive environment, giving students access to course-critical content anytime, anywhere. Guided Examples provide students with narrated and animated, step-by-step walkthroughs of algorithmic versions of assigned exercises.

### **Called to Account**

Financial Strategy for Public Managers is a new generation textbook for financial management in the public sector. It offers a thorough, applied, and concise introduction to the essential financial concepts and analytical tools that today's effective public servants need to know. It starts "at the beginning" and assumes no prior knowledge or experience in financial management. Throughout the text, Kioko and Marlowe emphasize how financial information can and should inform every aspect of public sector strategy, from routine procurement decisions to budget preparation to program design to major new policy initiatives. They draw upon dozens of real-world examples, cases, and applied problems to bring that relationship between information and strategy to life. Unlike other public financial

management texts, the authors also integrate foundational principles across the government, non-profit, and "hybrid/for-benefit" sectors. Coverage includes basic principles of accounting and financial reporting, preparing and analyzing financial statements, cost analysis, and the process and politics of budget preparation. The text also includes several large case studies appropriate for class discussion and/or graded assignments.

Financial Accounting for Management: An Analytical Perspective focuses on the analysis and interpretation of financial information for strategic decision making to enable students and managers to formulate business strategies for revenue enhancement, cost economies, efficiency improvements, restructuring of operations, and further expansion or diversification for creating and enhancing the shareholder's value. MBA, MFC and MBE students are its primary audience but its practical orientation will also be useful to corporate sector managers and CA, CWA, CS, CFA and CAIIB students.

### **Financial Management for Nonprofit Organizations**

A guide for businesspeople covers such essentials as financial statements, balance

sheets, liabilities, assets, and income statements.

### **Financial Accounting for Managers, 3rd Edition**

This thoroughly revised and updated edition, with most of the chapters of the previous edition rewritten, clearly analyzes the concepts and applications of financial accounting. The book acquaints the readers with the new International Financial Reporting Standards (IFRS) which are applicable in India from 1 April 2011 onwards. Divided into 17 chapters, the text explains, with the help of many tables, boxes, and practical examples, all the basic accounting principles. The book is written in an accessible and reader-friendly manner so that the students can comprehend the subject with great ease. Intended primarily for postgraduate students of management, the book should also be extremely useful for those preparing for accountancy examinations. Besides, practising managers should find the book handy for analyzing financial statements. The text is prepared based on IFRS revised up to 1 September 2010. □ Includes Revised Schedule VI on Profit and Loss Account Format, and an Annexure on Notifications on Revised Schedule VI. □ The book provides a CD containing a large number of PowerPoint Presentations (PPTs), along with the amended Schedule VI. □ The chapters, particularly those covering accounting standards, have been thoroughly revised.

An update to Financial and Managerial Accounting for School Administrators: Superintendents, School Business Administrators and Principals, this book and CD includes current best practices, GASB pronouncements, and web-based applications. It also provides school administrators with important accounting

background, technique, and applications in the school environment and demonstrates the overall binding effect accounting has on all of the tasks and functions performed by school administrators. Knowledge about accounting and accounting skills pervades all aspects of the day-to-day operation of a school and school district. The proper day-to-day operation of the schools and quality planning and decision-making cannot realistically take place unless administrators and board members have an understanding of school fund accounting. The present and the future will see the need for both financial and managerial accounting. One type will not overshadow the other. Both will continue to evolve and develop to satisfy the needs of society and the education community. Financial and managerial accounting together can be thought of as the process that gathers, produces, organizes, and presents information that can be consumed by a wide variety of users for the purpose of keeping an organization operating, growing, improving, and changing. This book and CD will be useful to superintendents, school business managers, and principals.
