## **Emil and the Three Twins**

## **Next Move**

In this companion to Urs Widmer's novel My Mother's Lover, the narrator is again the son who pieces together the fragments of his parents' stories. Since the age of twelve, Karl, the father, has observed the family tradition of recording his life in a single notebook, but when his book is lost soon after his death, his son resolves to rewrite it. Here, we get to know Karl's friends--a collection of anti-fascist painters and architects known as Group 33. We learn of the early years of Karl's marriage and follow his military service as the Swiss fear a German invasion during World

War II, his political activity for the Communist Party, and his brief career as a teacher. Widmer brilliantly combines family history and historical events to tell the story of a man more at home in the world of the imagination than in the real world, a father who grows on the reader, just as he grows on his son.

Word lists lie at the heart of good vocabulary course design, the development of graded materials for extensive listening and extensive reading, research on vocabulary load, and vocabulary test development. This book has been written for vocabulary researchers and curriculum designers to describe the factors they need to consider when they create frequency-based word lists. These include the purpose for which the word list is to be used, the design of the corpus from which the list will be made, the unit of counting, and what should and should not be counted as words. The book draws on research to show the current state of knowledge of these factors and provides very practical guidelines for making word lists for language teaching and testing. The writer is well known for his work in the teaching and learning of vocabulary and in the creation of word lists and vocabulary size tests based on word lists.
