In 1905 President Teddy Roosevelt dispatched Secretary of War William Howard Taft on the largest U.S. diplomatic mission in history to Hawaii, Japan, the Philippines, China, and Korea. Roosevelt's glamorous twenty-one year old daughter Alice served as mistress of the cruise, which included senators and congressmen. On this trip, Taft concluded secret agreements in Roosevelt's name. In 2005, a century later, James Bradley traveled in the wake of Roosevelt's mission and discovered what had transpired in Honolulu, Tokyo, Manila, Beijing and Seoul. In 1905, Roosevelt was bully-confident and made secret agreements that he thought would secure America's westward push into the Pacific. Instead, he lit the long fuse on the Asian firecrackers that would singe America's hands for a century.

Between 1492 and 1914, Europeans conquered 84 percent of the globe. But why did Europe establish global dominance, when for centuries the Chinese, Japanese, Ottomans, and South Asians were far more advanced? In *Why Did Europe Conquer the World?*, Philip Hoffman demonstrates that conventional explanations—such as geography, epidemic disease, and the Industrial Revolution—fail to provide answers. Arguing instead for the pivotal role of economic and political history, Hoffman shows that if certain variables had been different, Europe would have been eclipsed, and another power could have become master of the world. Hoffman sheds light on the two millennia of economic, political, and historical changes that set European states on a distinctive path of development, military rivalry, and war. This resulted in astonishingly rapid growth in Europe's military sector, and produced an insurmountable lead in gunpowder technology. The consequences determined which states established colonial empires or ran the slave trade, and even which economies were the first to industrialize. Debunking traditional arguments, *Why Did Europe Conquer the World?* reveals the startling reasons behind Europe's historic global supremacy.

### **The century of total war**

This book, by a great PanAfricanist leader, sets out the case for the total liberation and unification of Africa. It is essential reading for all interested in world socio-economic developmental processes. Those who might have considered in 1963, when *Africa Must Unite* was first published, that Kwame Nkrumah was pursuing a 'policy of the impossible', can now no longer doubt his statesmanship. Increasing turmoil through the succession of reactionary military coups and the outbreak of needless civil wars in Africa prove conclusively that only unification can provide a realistic solution for Africa's political and economic problems. In the words of the author, "To suggest that the time is not yet ripe for considering a political union of Africa is to evade facts and ignore realities in Africa today. Here is a challenge which destiny has thrown . to the leaders of Africa."

### **The American Pageant**

"An enthralling story . . . A work of history that reads like a novel." — Christian Science Monitor "As Hochschild's brilliant

book demonstrates, the great Congo scandal prefigured our own times . . . This book must be read and reread.” — Los Angeles Times Book Review In the late nineteenth century, as the European powers were carving up Africa, King Leopold II of Belgium carried out a brutal plundering of the territory surrounding the Congo River. Ultimately slashing the area’s population by ten million, he still managed to shrewdly cultivate his reputation as a great humanitarian. A tale far richer than any novelist could invent, King Leopold’s Ghost is the horrifying account of a megalomaniac of monstrous proportions. It is also the deeply moving portrait of those who defied Leopold: African rebel leaders who fought against hopeless odds and a brave handful of missionaries, travelers, and young idealists who went to Africa for work or adventure but unexpectedly found themselves witnesses to a holocaust and participants in the twentieth century’s first great human rights movement. ### **The Black Man's Burden**

Art. Asian & Asian American Studies. Filipino American Studies. Co-authored by Abe Ignacio, Enrique de la Cruz, Jorge Emmanuel, and Helen Toribio. THE FORBIDDEN BOOK uses over 200 political cartoons from 1898 to 1906 to chronicle a little known war between the United States and the Philippines. The war saw the deployment of 126,000 U.S. troops, lasted more than 15 years and killed hundreds of thousands of Filipinos beginning in February 1899. The book's title comes from a 1900 Chicago Chronicle cartoon of the same name showing then-President William McKinley putting a lock on a book titled "True History of the War in the Philippines." Today, very few Americans know about the brutal suppression of Philippine independence or the anti-war movement led at that time by the likes of writer Mark Twain, peace activist Jane Addams, journalist Joseph Pulitzer, steel magnate Andrew Carnegie, labor leader Samuel Gompers, and Moorfield Storey, first president of the NAACP. The book reveals how the public was misled in the days leading to the war, shows illustrations of U.S. soldiers using the infamous "water cure" torture (today referred to as "waterboarding"), and describes a highly publicized court martial of soldiers who had killed prisoners of war. The election of 1900 pitted a pro-war Republican president against an anti-war Democratic candidate. In 1902, the Republican president declared a premature "mission accomplished" as the war was beginning to expand to the southern Philippines. The book shows political cartoons glorifying manifest destiny, demonizing the leader of the Filipino resistance President Emilio Aguinaldo, and portraying Filipinos, Puerto Ricans, Cubans, Hawaiians, Chamorros, and other colonials as dark-skinned savages in need of civilization. These images were used to justify a war at a time when three African Americans on average were lynched every week across the south and when the Supreme Court approved the "separate but equal" doctrine. More than a century later, the U.S.-Philippine War remains hidden from the vast majority of Americans. The late historian Howard Zinn noted, "THE FORBIDDEN

BOOK brings that shameful episode in our history out in the open The book deserves wide circulation."

### **The Interest of America in Sea Power, Present and Future**

The Victorian period, viewed in the West as a time of self-confident progress, was experienced by Asians as a catastrophe. As the British gunned down the last heirs to the Mughal Empire, burned down the Summer Palace in Beijing, or humiliated the bankrupt rulers of the Ottoman Empire, it was clear that for Asia to recover a vast intellectual effort would be required. Pankaj Mishra's fascinating, highly entertaining new book tells the story of a remarkable group of men from across the continent who met the challenge of the West. Incessantly travelling, questioning and agonising, they both hated the West and recognised that an Asian renaissance needed to be fuelled in part by engagement with the enemy. Through many setbacks and wrong turns, a powerful, contradictory and ultimately unstoppable series of ideas were created that now lie behind everything from the Chinese Communist Party to Al Qaeda, from Indian nationalism to the Muslim Brotherhood. Mishra allows the reader to see the events of two centuries anew, through the eyes of the journalists, poets, radicals and charismatics who criss-crossed Europe and Asia and created the ideas which lie behind the powerful Asian nations of the twenty-first century.
