painting 50 real and imagined creatures in a whimsical folk-art style. With an embossed cover, striking endpapers, and extraordinary interior illustrations, this beautifully crafted book is a unique piece of art in itself. Husband-and-wife illustrator team Harry and Zanna Goldhawk, the founders of Papio Press, teach you how to make vibrant paintings of these beautiful beasts and fictional fauna: Mammals, including big cats, wolves, sloths, and red pandas Marine life, including whales, sea dragons, narwhals, and giant Pacific octopi Birds, including peacocks, cranes, owls, and flamingos Insects, including butterflies, moths, bumblebees, and damselflies Mythical creatures, including mermaids, unicorns, dragons, phoenixes, centaurs, and hippogriffs And more! The Creature Garden begins with the basics, first instructing you on which tools to use, how to create patterns, the importance of keeping a sketchbook, and even avoiding comparison with other artists. Each project carefully guides you through each phase of the artistic process, from creating an outline to adding a realistic animal pattern. As Daniel Hardcastle careers towards thirty, he looks back on what has really made him happy in life: the friends, the romances the video games. Told through encounters with the most remarkable - and the most mind-boggling - games of the last thirty-odd years, *Fuck Yeah, Video Games* is also a love letter to the greatest hobby in the world. From *God of War* to *Tomb Raider*, *Pokémon* to *The Sims*, Daniel relives each game with countless in-jokes, obscure references and his signature wit, as well as intricate, original illustrations by Rebecca Maughan. Alongside this march of merriment are chapters dedicated to the hardware behind the games: a veritable history of Sony, Nintendo, Sega and Atari consoles. Joyous, absurd, personal and at times swearsy, Daniel's memoir is a celebration of the sheer brilliance of video games.

Sketch and Go: 5-Minute Fashion Illustration

A simple antidote to our nature-starved lives, *The Joy of Forest Bathing* is an enticing and comprehensive introduction to forest bathing—or *Shinrin-yoku*, in Japan—the meditative practice of connecting with nature and disconnecting from the distractions of daily life. Full sensory immersion in the beauty and wonder of nature and trees can produce mental, emotional, and physical health benefits. Research has shown that forest bathing lowers blood pressure, pulse rate, and cortisol levels; improves mood; and may even boost our immunity to cancer and other diseases. *The Joy of Forest Bathing* invites you to experience the benefits of this healing practice for yourself. Learn the history and background of forest bathing, followed by detailed instructions for establishing a forest bathing practice in your own adopted “wild home,” encompassed in three steps: 1. Disengagement

from your daily routine 2. Deep breathing and nature connection through a series of quiet activities or “invitations” 3. Transitioning back to your daily life This restorative activity can be enjoyed by people of all ages and abilities: children, teenagers, and even senior citizens with limited mobility and people recovering from illness and surgery. And you don’t need to travel to the Japanese alps to experience the benefits of forest bathing. All you need is a small patch of untouched (or lightly touched) nature to adopt as your “wild home.” Within, find practical tips and inspiration for forest bathing through the seasons: in the winter, when the leafless trees open up new vistas; in the spring, when you can hear the melodious serenade of song birds as they nest in the newly formed green canopy; in the summer, watching the butterflies nectaring on wildflowers; and in the autumn, when you can catch glimpses of hurried squirrels storing food for the winter. The Joy of Forest Bathing introduces a variety of activities that can be enhanced with forest bathing elements, such as mindfulness practices, exercise, art and writing, and outdoor celebrations. Learn, too, how surrendering to the mysteries of nature can provide guidance through difficult times. As you find nourishment in nature, you will instinctively begin to wonder how you can preserve and protect this healing resource. This guide includes suggestions for tending to your “wild home.” Illustrated throughout with enchanting artwork by Dutch illustrator Lieke van der Vorst and stunning nature photography, The Joy of Forest Bathing is the perfect guide to enhancing your life with the wondrous world of nature. Be Happy: A Journal is here to help you find sustainable happiness in the well of yourself. With a focus on the power of choice, follow the prompts in this beautifully designed journal to find and follow your unique path to success. Happiness is a transient emotional state. We frequently think of it as a place we're trying to get to, but happiness is more a constant process rather than a destination. Prompts in the Be Happy: A Journal will ask you to reflect on the choices you are currently making versus the choices you will be prompted to write about and explore. Sometimes our choices are unconscious, and it's not until we are presented with alternatives that we realize we've been sabotaging ourselves all along. We must think about the daily choices that determine (a) the emotional states we want to embody, and (b) the personal values we can connect with along the way. If you're a fan of "fast"--not necessarily in the quick-fix kind of way, but in a this-fits-easily-into-my-day kind of way--then this journal (and journey!) is for you. A hardworking set of tools that you can access on your own terms, in your own time. This journal is organized into nine sections, each one asking you to choose an important part of living a full life, and determine how you may or may not have been doing so thus far. As you go through the prompts, you may find that you are following the right path. If that is the case, think deeper on how you can push yourself further; there's always room for improvement. If this has not been your path, use the prompts and hardworking tools to map a new path to success, and make a deep commitment to changing your way of thinking. The prompts in this journal will focus on diving deep into your personal power, the power you have in choosing emotional states and

values that help you to live a full life based on what's important to you deep down. You'll be encouraged to put these lessons to work and look at ways you can cement positivity into your everyday life. After taking time to look inward while answering these prompts and identifying which parts of your life you'd like to change, focus your energy toward making an actual difference. Hard to hold on to, difficult to find, and some days, not much more than a memory, happiness is still a part of us and what we as humans seek out, even when it eludes us. Luckily, thriving is a psychological state that doesn't just rely on positive feelings like happiness, but on the daily choices we make. Want to live a rich, vital, fulfilling life? Choose your focus. Choose your actions. Congratulations on acknowledging that you can get more out of life. The happiness habits you cultivate will show you how. Let's go!
