Pussyhats, typically crafted with yarn, quite literally created a sea of pink the day after Donald J. Trump became the 45th president of the United States in January 2017, as the inaugural Women's March unfolded throughout the U.S., and sister cities globally. But there was nothing new about women crafting as a means of dissent. *Crafting Dissent: Handicraft as Protest from the American Revolution to the Pussyhats* is the first book that demonstrates how craft, typically involving the manipulation of yarn, thread and fabric, has also been used as a subversive tool throughout history and up to the present day, to push back against government policy and social norms that crafters perceive to be harmful to them, their bodies, their families, their ideals relating to equality and human rights, and their aspirations. At the heart of the book is an exploration for how craft is used by citizens to engage with the rhetoric and policy shaping their country's public sphere. The book is divided into three sections: "Crafting Histories," Politics of

Craft," and "Crafting Cultural Conversations." Three features make this a unique contribution to the field of craft activism and history: The inclusion of diverse contributors from a global perspective (including from England, Ireland, India, New Zealand, Australia) Essay formats including photo essays, personal essays and scholarly investigations The variety of professional backgrounds among the book's contributors, including academics, museum curators, art therapists, small business owners, provocateurs, artists and makers. This book explains that while handicraft and craft-motivated activism may appear to be all the rage and "of the moment," a long thread reveals its roots as far back as the founding of American Democracy, and at key turning points throughout the history of nations throughout the world.

These volumes replace the 1933 Supplement to the OED. The vocabulary treated is that which came into use during the publication of the successive sections of the main Dictionary -- that is, between 1884, when the first fascicle of the letter A was published, and 1928, when the final section of the Dictionary appeared -- together with accessions to the English language in Britain and abroad from 1928 to the present day. Nearly all the material in the 1933 Supplement has been retained here, though in revised form (Preface).

Purl and stitch: Empowering, healing, and reconnecting us to each other and ourselves. In a fractured world plagued by anxiety and loneliness, knitting is coming to the rescue of people from all walks of life. Economist and lifelong knitter Loretta Napoleoni unveils the hidden power of the purl and stitch mantra: an essential tool for the survival of our species, a means for women to influence history, a soothing activity to calm us, and a powerful metaphor of life. This book is a voyage through our history following the yarn of social, economic and political changes - from ancient Egypt and Peru to modern Mongolia, from the spinning bees of the American Revolution to the knitting spies of World War II, and from the hippies' rejection of consumerism to yarnbombing protests against climate change. For the

author it is also a personal journey of discovery and salvation, drawing on the wisdom her grandmother passed along as they knit together. Revealing recent discoveries in neuroscience, *The Power of Knitting* offers proof of the healing powers of knitting on our bodies and minds. Breaking through societal barriers, even nursing broken hearts, and helping to advance cutting-edge science, knitting is still a valuable instrument for navigating our daily lives. As a bonus, the book includes patterns for ten simple yet iconic projects that reflect the creative, empowering spirit of knitting, with complete instructions.

This book is the first to explore handicrafting practiced by media fans, their online fan communities and the multiple meanings they create. Based on in-depth ethnographic research into fans on the online social network for knitters, crocheters and crafters, Ravelry, Brigid Cherry explores textile craft by fans as both an artistic practice and transformative fan work. Including case studies of projects inspired by Doctor Who, True Blood, Firefly, Harry Potter, Sherlock and steampunk, the book engages with many forms of fan production, including fan art, fan fiction and cosplay. Fans of popular films and TV shows are increasingly engaging with textile crafts as a way of reworking, reimagining and engaging with cult media texts. Proving a global phenomenon amongst fan cultures in the digital media sphere, traditional film and TV audiences are forging their fan identities and participating in wider fan communities in innovative ways through online craft forums and blogs that showcase their knitting, crochet, spinning and dyeing projects. Exploring key debates from textile and media theory, surrounding gender,

domesticity, the culture industries, audiences and fan culture, this book is essential reading for students of textiles, media studies, fashion, cultural and gender studies.

Knit and Nibble: Life's Patterns, Recipes and Games

Literally and figuratively the amazing sea voyage with Ali Baba was all part of a youthful quest to discover Europe in the aftermath of World War II. Watching it with horror from Canada everyone asked, "What will be left of Europe?" After closely following it by radio, and the press, then working my way to France by sea with Ali, on a federal government contract in December 1950 I was able to enjoy two fascinating and illuminating years. I had arrived in time to savour the popular, early postwar era in Paris before the winds of change issued in the modern European world. This book is written in remembrance also of all those teenagers, as we were in 1939, taken as slave labour from school to produce armaments for the Nazis. We had been shocked at the time by such news. Even before 1939, the Nazis were persecuting, imprisoning and exterminating Jewish teenagers and their entire families as we looked on.
