A Navajo Legacy

ELEVEN MEN embarked upon a journey in 1894 with one objective: to find the great spiritual teachers of the Far East and witness their uncommon abilities. Since these Masters were scattered over a wide territory that covered a large portion of India, Tibet, China, and Persia, they knew it could take years of searching many secluded villages and hidden mountain communes. Planning each step of the journey became a challenge knowing that countless miles of rugged terrain separated the remote and isolate locations that were imperative to the exploration. Even though they could plot their route on a map and see where they were headed, the destination deep within the souls of eleven scientifically trained men remained uncertain. Baird T. Spalding and the others were practical in nature and the thought of spiritual masters performing miracles seemed impossible. Despite these suspect thoughts, something compelled them to move onward. So they did.

Buddha's Life and Teaching

Catherine of Siena

The Good Life of Teaching extends the recent revival of virtue ethics to professional ethics and the philosophy of teaching. It connects long-standing philosophical questions about work and human growth to questions about teacher motivation, identity, and development. Makes a significant contribution to the philosophy of teaching and also offers new insights into virtue theory and professional ethics Offers fresh and detailed readings of major figures in ethics, including Alasdair MacIntyre, Charles Taylor, and Bernard Williams and the practical philosophies of Hannah Arendt, John Dewey and Hans-Georg Gadamer Provides illustrations to assist the reader in visualizing major points, and integrates sources such as film, literature, and teaching memoirs to exemplify arguments in an engaging and accessible way Presents a compelling vision of teaching as a reflective practice showing how this requires us to prepare teachers differently

Preaching and Teaching the Last Things

The apostle Paul led a dramatic and fascinating life from his conversion on the road to Damascus to his imprisonments to his speeches in the public square. His letters shaped the believers in the early church just as they do today. In this study guide by Jack Kuhatschek we will survey both the highlights of his life and the core teachings in his writings.

Life and Teaching of the Masters of the Far East, Vol. 2

The contemporary 'boom' in the publication and consumption of auto/biographical representation has made life narratives a popular and compelling subject for twenty-first century classrooms. The proliferation of forms, media, terminologies, and disciplinary approaches in a range of educational contexts invites discussion of how and why we teach these materials. Drawing on their experiences in disciplines including creative writing, language studies, education, literary studies, linguistics, and psychology, contributors to this volume explore some of the central issues that inspire, enable, and complicate the teaching of life writing subjects and texts, examining the ideologies, issues, methods, and practices that underpin contemporary pedagogies of auto/biography. The collection acknowledges the potential perils that life writing texts and subjects represent for instructors, with a series of short essays by leading auto/biography scholars who reflect on their failed experiences teaching life narratives, and share strategies for negotiating the particular challenges these texts can present. Exploring issues including teaching across genres, analyzing writing about trauma, decolonizing pedagogies, and challenging assumptions (our own, our students', and our colleagues'), *Teaching Lives* illuminates what makes the teaching of life narratives different from teaching other kinds of subjects or texts, and why auto/biography has such a critical role to play in contemporary education. This book was originally published as a special issue of *a/b: Auto/Biography Studies*.

The Life and Teaching of Jesus Christ

This book is an open letter to teachers offering guidance and encouragement for nurturing students in ways that make teaching and learning meaningful. The authors promote an approach to teaching that fosters self-knowledge, creativity, curiosity, and an appreciation for our planet. Central to their philosophy is the question of what we humans need in order to live meaningful lives, and the answer lies in healthy relationships with ourselves, each other, and the world.

The Life and Teachings of Mohammed

Life and Teaching of the Masters of the Far East, Vol. 1

Maha Bodhi Society of India writes in its foreword, *Knowing Buddha* is a well planned and richly written book has achieved a rare balance between reason and emotion, in keeping with the great and sublime tradition and teaching of the Buddha and his Middle Path. When people ask, What do you have to do to become

a Buddhist? we say that we take refuge in Buddha Dhamma Sangha. And to take refuge we recite a formula in the Pali language: Buddhāṃ śaraṇaṃ gacchāmi, gaṃhi, gaṃhi, gaṃhi go to the Buddha for refuge. Saṅghaṃ śaraṇaṃ gacchāmi, gaṃhi, gaṃhi, gaṃhi go to the Sangha for refuge. Dhammaṃ śaraṇaṃ gacchāmi, gaṃhi, gaṃhi, gaṃhi go to the Dhamma for refuge.

The Historical Buddha

What difference does Jesus Christ make for the way we teach the Christian faith? If he is truly God and truly human, if he reveals God to us and us to ourselves, how might that shape our approach to teaching Christianity? Drawing on the work of Søren Kierkegaard, Karl Barth, and Dietrich Bonhoeffer, Adam Neder offers a clear and creative theological and spiritual reflection on the art of teaching the Christian faith. This engaging book provides a wealth of fresh theological insights and practical suggestions for anyone involved in teaching and learning Christianity.

Buddha

On the life and teachings of the Punjabi Sufi saint poet Shaikh Farid-Uddin, 1175?-1265.

Jesus of Nazareth

More than twenty-five hundred years ago, an Indian prince achieved enlightenment and became “the Awakened One.” However extraordinary Prince Siddhartha Gautama was, he was no divinity, but a self-perfected human being who brought a sweeping message to mankind. Walter Henry Nelson, a respected historical scholar and author, offers readers a distinctly accessible and authoritative biography of the Buddha and his teachings. In this essential, gripping, and inspiring introduction for the general reader, *Buddha* explores ancient legends surrounding Buddhism’s founder. It shows how the simple story and profound struggle of Prince Siddhartha, who died five hundred years before the birth of Christ, were transformed into one of the world’s great religions. From tales of Gautama’s struggle to parables of the intervention of gods in his journey, Nelson takes readers through the historical existence and ideals at the heart of a religion and philosophy that searches beyond

materialism for the true aim of life.

Learning and Teaching in the Virtual World of Second Life

Virtual worlds are increasingly incorporated into modern universities and teaching pedagogy. Over 190 higher education institutions worldwide have done teaching in the virtual world of Second Life (SL). This book is based on the first Scandinavian project to experiment with the design and testing of teaching platforms for life long learning in SL. In 2007, it created a virtual island or "sim" in SL called "Kamimo Education Island." The project generated a number of courses taught in SL, and instructed educators in the use of SL. This book disseminates the experiences and lessons learned from that project and from other educational projects in SL. The book identifies the gaps in traditional forms of education. It provides a roadmap on issues of instructional design, learner modeling, building simulations, exploring alternatives to design, and integrating tools in education with other learning systems.

Teach Like a Pirate

From History to Mystery the Life and Teachings of the Historical Jesus

Distinguished Old Testament scholar Walter Kaiser believes that the Old Testament is sorely neglected today in teaching and preaching, but it is even more neglected when it comes to setting forth the hope that Christians have for the future. Firmly believing that the Old Testament offers important insights into biblical eschatology and the Christian life, he provides guidance for expositing fifteen key Old Testament eschatological passages to preachers, teachers, and Bible students. Each chapter focuses on a single biblical text. Kaiser introduces the topic, examines the issues, notes who has contributed to some of the solutions, and shows how this sets up the text to be exegeted and prepared for exposition.

Teaching Life

"Jesus wrote no autobiography. He left nothing in writing at all. He committed himself and his teaching simply to the hearts and memories of the men who knew and loved him. And they did not fail him. The four little books that we call Gospels are our primary and practically our only sources of information about the life and the words that have changed the world. We may wish the story had been told with greater fullness and detail; but we know that, short as it is, it is enough. It has given Christ to every race and age." (excerpt from Chapter 1: The Making of the Gospels)

Baba Sheikh Farid: His Life and Teaching

This textbook explores the quest for the Historical Jesus and seeks to discover the original meanings of his teachings, in particular his kingdom of God teachings. You will learn about the last 200 years of Jesus research, including the Jesus Seminar.

The author discusses Gnosticism, The Gospel of Thomas, The Secret Gospel of Mark, and the three synoptic gospels; Matthew, Mark, and Luke. The author spends much of her time investigating the Parables of Jesus. The author makes a conclusion based on her historical studies who the historical Jesus was and what he taught. This is based purely on historical evidence and is not a statement of the author's belief system. Whether you are a seminary student, pastor, or a layperson this is a must read on the subject of the historical teachings of Jesus!

The Life and Teachings of Confucius

The life and teaching of Karl Marx

Although Catherine of Siena was proclaimed a Doctor of the Church in 1970, relatively little attention has been given to her mystical thought, particularly in the English-speaking world. The Dialogue, the famous compendium of her mature thought, is difficult to understand owing to its interruptions, repetitions, overlapping arguments, imagery and undefined terms. Thomas McDermott breaks new ground in his systematic presentation of Catherine's teachings. Drawing on the Dialogue and also on Catherine's 381 letters and prayers, he explains clearly her principal teachings in relation to spiritual development, and identifies Catherine's possible sources as well as her areas of originality. By examining Catherine's life and mystical experiences, McDermott shows how she herself grew spiritually and how her growth corresponds to her later teaching on the 'three stairs' on the 'bridge of Christ crucified.' Finally, the author puts forward what he regards as the fundamental message of Catherine's life and teaching. Students of mysticism and spirituality will find this book a trustworthy guide through the incredibly rich mysticism of one of the 14th century's most amazing women.

Illusion's Game

"In the second part of the book, Holiday details the family and tribal teachings he has acquired over a long life. He tells his grandparents' stories of the Long Walk era, discusses local attitudes about the land, relates Navajo religious stories, and recounts his training as a medicine man. All of Holiday's experiences and teachings reflect the thoughts of a traditional practitioner who has found in life both beauty and lessons for future generations."--BOOK JACKET.

Pythagoras

John Ruskin, His Life and Teaching

'The book before us here is not some kind of dusty text or just another undergraduate-level introduction to Buddhism. It is nothing less than the still, clear, luminous centre of a hurricane' – Neil Franklin (from the Foreword) Although this classic text is more than one hundred years' old, its accurate scholarship, detailed research and lucid presentation make it no less relevant today than when it was first published. In 1916, Hermann Beckh was one of a handful of leading European authorities on Buddhist texts, reading Tibetan, Sanskrit and Pali fluently. At the same time, he was a member of the Anthroposophical Society and its Esoteric Section. In consequence, Beckh's seminal study on Buddhism has an entirely unique quality. It invites the reader to engage freely with the Buddhist Path, although in many ways re-expressed and renewed by Rudolf Steiner, whilst discovering its universal validity through the original texts. For the most part, Beckh allows these texts to speak for themselves, as eloquently now as ever. In the first section, Beckh presents Gautama Buddha's life from legend and history. The second part of the book details the 'general viewpoints' of Buddhist teaching and the individual stages of the Buddhist Path, including meditation to ever higher levels. Both sections are expertly collated out of a wide knowledge of the primary sources. To this academic understanding, Beckh sheds new light on the subject from his own research, based on highly-trained meditation guided by Rudolf Steiner (with whom he carried out a long-lasting correspondence that has only recently been uncovered). Dr Katrin Binder has rendered the complete German text in a natural English idiom with great accuracy and professional insight, thereby making this timeless book available to English readers for the first time in a lucid translation. New notes and an updated bibliography are also featured.

The Impersonal Life

One of the most important mathematical theorems is named after Pythagoras of Samos, but this semi-mythical Greek sage has more to offer than formulas. He is said to have discovered the numerical nature of the basic consonances and transposed the musical proportions to the cosmos, postulating a "harmony of the spheres." He may have coined the words "cosmos" and "philosophy." He is also believed to have taught the doctrine of transmigration of souls and therefore to have advised a vegetarian diet. Ancient legends have Pythagoras conversing with dogs, bears, and bulls. A distinctly Pythagorean way of life, including detailed ritual regulations, was observed by his disciples, who were organized as a secret society. Later, Pythagorean and Platonic teachings became fused. In this Platonized form, Pythagoreanism has remained influential through medieval Christianity and the Renaissance down to the present. Christoph Riedweg's book is an engaging introduction to the fundamental contributions of Pythagoras to the establishment of European culture. To penetrate the intricate maze of lore and ascertain what history can tell us about the philosopher, Riedweg not only examines the written record but also considers Pythagoras within the cultural, intellectual, and spiritual context of his times. The result is a vivid overview of the life and teachings of a crucial Greek thinker and his most important followers.

The Life and Teaching of Friedrich Engels

The apostle Paul and his significance for the New Testament and Christianity is a perennial topic of interest, but few evangelical surveys of his life offer a truly holistic picture of the man and his world. Now available in trade paper, John McRay's Paul explores the apostle's preconversion days, missionary travels, and theological contributions. A specialist in archaeology, the author draws on his more than forty years of teaching experience as well as knowledge gained from extensive travels to the places Paul visited. Paul is a comprehensive and readable presentation of Paul's ministry and theology that weaves together historical backgrounds, archaeological discoveries, and theological themes.

The Life and Teaching of Sri Brahmajna Ma

No man has had a greater influence on the spiritual development of his people than Siddhartha Gautama. Born in India in the sixth century BC into a nation hungry for spiritual experience, he developed a religious and moral teaching that, to this day, brings comfort and peace to all who practise it. This comprehensive biography examines the social, religious and political conditions that gave rise to Buddhism as we now know it.

Studies in the Life and Teachings of Jesus

"This book is for teachers who have good days and bad -- and whose bad days bring the suffering that comes only from something one loves. It is for teachers who refuse to harden their hearts, because they love learners, learning, and the teaching life." - Parker J. Palmer [from the Introduction] Teachers choose their vocation for reasons of the heart, because they care deeply about their students and about their subject. But the demands of teaching cause too many educators to lose heart. Is it possible to take heart in teaching once more so that we can continue to do what good teachers always do -- give heart to our students? In *The Courage to Teach*, Parker Palmer takes teachers on an inner journey toward reconnecting with their vocation and their students -- and recovering their passion for one of the most difficult and important of human endeavors.

Paul

In what he calls a "200 percent potent" teaching, Chögyam Trungpa reveals how the spiritual path is a raw and rugged "unlearning" process that draws us away from the comfort of conventional expectations and conceptual attitudes toward a naked encounter with reality. The tantric paradigm for this process is the story of the Indian master Naropa (1016–1100), who is among the enlightened teachers of the Kagyu lineage of the Tibetan Buddhism. Naropa was the leading scholar at Nalanda, the Buddhist monastic university, when he embarked upon the lonely and arduous path to enlightenment. After a series of daunting trials, he was prepared to receive the direct transmission of the awakened state of mind from his guru, Tilopa. Teachings that he received, including those known as the six doctrines of Naropa, have been passed down in the lineages of Tibetan Buddhism for a millennium. Trungpa's commentary shows the relevance of Naropa's extraordinary journey for today's practitioners who seek to follow the spiritual path. Naropa's story makes it possible to delineate in very concrete terms the various levels of spiritual development that lead to the student's readiness to meet the teacher's mind. Trungpa thus opens to Western students of Buddhism the path of devotion and surrender to the guru as the embodiment and representative of reality.

Paul

The book takes the form of six essays covering the life and teachings of Shri Govindananda Bharati, known at the time of his death as the Shivapuri Baba. The first chapter describes his origins from his birth in 1826 in Kerala, his religious training and preparation and his 40 year circumambulation of the world, meeting all the major world leaders of his day, and his forty year retirement in a forest hut outside Kathmandu. Subsequent chapters, describe his practical teachings, which are so simply explained and so universal that they will always be relevant to seekers. Ancient teachings are presented in a modern interpretation. The Shivapuri Baba himself described his teachings as "the Bhagavad Gita brought up to date". The final chapter presents a revolutionary world view which reveals an immense wisdom and understanding of human destiny, presented in a form that all can appreciate. The Shivapuri Baba left this life in January of 1963, and at that time few knew of him, and nothing at all had been written about him. The present book was the first public account of the saint, appearing in 1965. In 2001, Thakur Lal Manadhar's son Giridhar approached J.G. Bennett's family requesting the rights to republish in English and Nepali. Giridhar was able to provide a number of photographic images not published previously and many of which were from his own camera. The present edition is taken from the 2001 publication. At the launch of the book in Kathmandu in 2007, Giridhar was asked by a reporter whether the Shivapuri Baba had actually read what was written, noting that the text indicated that he had seen and approved it? Giridhar said that he believed that he had not read it, and stating that at the end of his life, the Shivapuri Baba did not want to engage with anything which would tie him to the world he was preparing to leave for the last time. To Dr Sarvepalli Radhakrishnan, visiting in 1956 he said: "I teach three disciplines: physical; moral spiritual." These disciplines form the foundation of Right Life - Swadharma, and the journals of Thakur Lal Manandhar relate how these disciplines were taught in the practical application to every day life. This is a simple but inspiring book from which everybody can benefit .
