Here is the book that exposed the Daimler-Chrysler "merger of equals" as a bold German takeover of an industrial icon. Taken for a Ride reveals the shock waves felt around the world when Daimler-Benz bought Chrysler for \$36 billion in 1998. In a gripping narrative, Bill Vlasic and Bradley A. Stertz go behind the scenes of the defining corporate drama of the decade -- and in a new epilogue chart its chaotic aftermath.

Franklin, Jack, Marla, Thadius, and Caitlin this unlikely group of assorted misfits are the Cemeterians, a group that will take on any job - no, really, we mean any bloody job (money's a bit tight right now)! Trudge through disgusting sewers to battle manatee-massacring mermaids and soggy cultists, creep through creepy, fog-littered cemeteries straight out of an ancient Hammer Film soundstage, confront undead lecherous lodgers and other assorted beasties, creepies, and ghoulies. It all comes down to whether an adolescent giant Automaton, a truly mad, Mad

Scientist, a surly Necromancer, a Banshee's granddaughter, and a reluctant furry monster straight from under your little sister's bed can manage not to kill each other - or, at least, quit fighting over the tele-privilege-schedule long enough to get the job done! Not likely.

* A thrilling photographic account of the treasure trove of cars kept by the Mercedes-Benz Museum in Stuttgart that are not currently on display to the public. The Mercedes-Benz Museum in Stuttgart is one of the largest and most visited industrial museums in the world. But the 160 or so automobiles on display are only a small part of the shiny chrome treasures that form the Mercedes-Benz Classic vehicle collection. Another 1,000 historical models are 'parked' in secret places outside Stuttgart - these secret places are called the 'Holy Halls'. This collection is the treasure trove of the brand. It has existed since 1923 and offers a comprehensive overview of the model history of Mercedes-Benz. Cars with special technology and equipment are stored here, as are the silver arrows of Caracciola, Lang and Fangio, the Pope's carriages, the state cars of the young Federal Republic of Germany or Mercedes models that became collectors' items due to their prominent previous owners. Some of these exhibits are well protected and waiting in special wooden boxes for their next use at exhibitions, fairs, events or classic car races. Others stand next to each other as silent witnesses of the past. Each time a model is modified, the collection is extended by the last vehicle of the discontinued series, which experts believe will be one of tomorrow's classic cars. The 'Holy Halls'

are not open to the public; enquiries from editorial offices and TV teams have often been rejected. But, during the years 2016 to 2018, almost all the vehicles of the Mercedes collection were photographed. Thus, a unique photographic collection was created, the automobile history from more than ten decades; many of the previously unpublished photographs are exclusively available here in this book. In addition, Mercedes-Benz Classic agreed to open the 'Holy Halls' for an external photo team and provide information about the car models stored there. For the first time, it has been possible to produce a fascinating illustrated book with panoramic and detailed shots from the 'halls', and lively photo reports on cars that tell stories - from the first Benz battling motor car to the latest Formula 1 racing car. Equally thrilling are the stories of the unique specimens and prototypes that are stored in the 'Holy Halls': Mercedes models that never went into production are presented for the first time. The stories about the selected automobiles of the vehicle collection are supplemented by historical recordings from the Mercedes-Benz Classic archive.

Tafelnutzer im Profil

Taken for a Ride

Die Wohlfahrtsorganisation "Tafel" feiert 2018 ihr 25-jähriges Bestehen. Durch das Einsammeln und Verteilen überschüssiger Lebensmittel versuchen die Tafeln, Ernährungsarmut zu lindern und die von Einkommensarmut bedrohten oder betroffenen Menschen zu unterstützen. Doch wer sind eigentlich die

TafelnutzerInnen in Deutschland und inwiefern unterscheiden sie sich von den Durchschnittsbürgern? Sind in einem Sozialstaat wie Deutschland tatsächlich Menschen von Ernährungsarmut betroffen? Durch eine quantitative und repräsentative Befragung bearbeitet Jessica Hartig diese Forschungslücken und lässt die Menschen zu Wort kommen, die sich regelmäßig in die Warteschlangen der Tafelausgabestellen einreihen und die in der Forschung bisher kaum berücksichtigt wurden. Neben dem Empfinden der TafelnutzerInnen stellt sie dar, ob Ernährungsarmut vorliegt, welche Nutzergruppen vermehrt zu den Tafeln gehen und welche möglichen Zusammenhänge zwischen den kontinuierlich gestiegenen Tafelnutzerzahlen und den wohlfahrtsstaatlichen Reformen in den Politikfeldern Arbeitsmarkt-, Renten- und Familienpolitik bestehen. Im Fokus steht dabei der Wandel von der aktiven zur aktivierenden Sozialpolitik.
