Headway: Beginner: Workbook Without Key

Diverse interest in language, pedagogy, identity and community has found expression through online interaction, networking and connectedness in the discourses captured in this book, Language, Culture and Social Connectedness. Issues surrounding language use in spoken, written and multimedia forms and in sociocultural responses, indigenous knowledges and ethnic perspectives are currently expanding, with consequential transnational implications for pedagogy in higher education. Language education is no longer oriented towards grammar, memorization and learning by rote, but rather using language and cultural knowledge as a means to communicate and connect to others around the globe. Geographical and physical boundaries are being transcended by technology as students learn to reach out to the world around them. This book explores the intricate relationships between language, culture and social connectedness in our diverse local and transnational communities. In a period of challenge in our history, there are tensions that connect and others that tend to disconnect endeavours across the social landscape. 'Connectedness' includes relationships both formal and informal and the benefits those relationships bring to the individual as well as to society. 'Social connectedness' describes the level of engagement and trust an individual has with others in their community and the roles they take on, their friendships and participation in different activities. People who feel socially connected also contribute towards building communities and society. They help to create social capital as networks that promote effective social functions.

New Headway English Course

This groundbreaking collection represents the broad scope of cutting-edge research in Cultural Linguistics, a burgeoning field of interdisciplinary inquiry into the relationships between language and cultural cognition. The materials surveyed in its chapters demonstrate how cultural conceptualisations encoded in language relate to all aspects of human life - from emotion and embodiment to kinship, religion, marriage and politics, even the understanding of life and death. Cultural Linguistics draws on cognitive science, complexity science and distributed cognition, among other disciplines, to strengthen its theoretical and analytical base. The tools it has developed have worked toward insightful investigations into the cultural grounding of language in numerous applied domains, including World Englishes, cross-cultural/intercultural pragmatics, intercultural communication, Teaching English as an International Language (TEIL), and political discourse analysis.

Headway: Intermediate: Workbook with Key

A new edition with a revised syllabus and completely new material.

New Headway, Beginner

Forget the 10,000 hour rule— what if it's possible to learn the basics of any new skill in 20 hours or less? Take a moment to consider how many things you want to learn to do. What's on your list? What's holding you back from getting started? Are you worried about the time and effort it takes to acquire new skills—time you don't have and effort you can't spare? Research suggests it takes 10,000 hours to develop a new skill. In this nonstop world when will you ever find that much time and energy? To make matters worse, the early hours of practicing something new are always the most frustrating. That's why it's difficult to learn how to speak a new language, play an instrument, hit a golf ball, or shoot great photos. It's so much easier to watch TV or surf the web . . . In *The First 20 Hours*, Josh Kaufman offers a systematic approach to rapid skill acquisition— how to learn any new skill as quickly as possible. His method shows you how to deconstruct complex skills, maximize productive practice, and remove common learning barriers. By completing just 20 hours of focused, deliberate practice you'll go from knowing absolutely nothing to performing noticeably well. Kaufman personally field-tested the methods in this book. You'll have a front row seat as he develops a personal yoga practice, writes his own web-based computer programs, teaches himself to touch type on a nonstandard keyboard, explores the oldest and most complex board game in history, picks up the ukulele, and learns how to windsurf. Here are a few of the simple techniques he teaches: Define your target performance level: Figure out what your desired level of skill looks like, what you're trying to achieve, and what you'll be able to do when you're done. The more specific, the better. Deconstruct the skill: Most of the things we think of as skills are actually bundles of smaller subskills. If you break down the subcomponents, it's easier to figure out which ones are most important and practice those first. Eliminate barriers to practice: Removing common distractions and unnecessary effort makes it much easier to sit down and focus on deliberate practice. Create fast feedback loops: Getting accurate, real-time information about how well you're performing during practice makes it much easier to improve. Whether you want to paint a portrait, launch a start-up, fly an airplane, or juggle flaming chainsaws, *The First 20 Hours* will help you pick up the basics of any skill in record time . . . and have more fun along the way.

The First 20 Hours

New Headway Beginner is aimed at absolute beginners, or those who have learned a little English but lack the confidence to build on it. It provides a solid foundation for *New Headway Elementary*. Its measured, step-by-step approach builds both skills and confidence. The right mix of language work and plentiful practice material enables learners to consolidate their knowledge of key points before proceeding further. The clearly defined grammatical syllabus includes past, present and future time and provides a thorough basis on which to build. The presentation of new language is gradual, methodical and clearly structured, giving learners a clear sense of progression. The vocabulary syllabus focuses on high-frequency survival terms and avoids overload. The gradual introduction of simple skills work with manageable communicative activities give learners a sense of achievement. 'Everyday English' practises social expressions in common situations and shows how learners can apply their knowledge in practical ways.

New Headway. Upper-Intermediate. Workbook with Key

UPRT 2008: Empirical Studies in English Applied Linguistics

This proceedings volume covers issues of learner corpus design, collection and annotation and contains reports on various aspects of (written and spoken) learner interlanguage as well as design of learner-corpus-informed tools.

Advances in Cultural Linguistics

American Headway Four

The Cutting Edge Elementary/Pre-Intermediate Video gives students a wealth of information about aspects of modern life, providing them with a rich source of authentic, real-life material. Based on the syllabus of the Cutting Edge Elementary and Pre-Intermediate students' books, the language is graded accordingly through the six video programmes.

HEADWAY

The first four levels of a new video series to accompany the New Headway. It can be used as an additional component to the New Headway, or as a supplement to any course at the appropriate level. Key Features Each level consists of six self-contained comedy stories looking at the lives and misadventures of four people in their twenties who share a house. The syllabus is closely linked to the New Headway. Each episode provides a natural context to consolidate the grammatical, functional and lexical areas covered by the course, and to develop listening skills. Key language is controlled and contextualized throughout. Each episode provides clear grammar and functional language, with an emphasis on developing communicative skills. The video is supported by an Activity Book for students and a Video Guide for teachers. Student's Book Before you watch, While you watch, and After you watch activities for full exploitation of the video Attractive illustrations in full colour Complete transcript
