The American Biographical Sketch Book

In this fascinating book, New Yorker business columnist James Surowiecki explores a deceptively simple idea: Large groups of people are smarter than an elite few, no matter how brilliant—better at solving problems, fostering innovation, coming to wise decisions, even predicting the future. With boundless erudition and in delightfully clear prose, Surowiecki ranges across fields as diverse as popular culture, psychology, ant biology, behavioral economics, artificial intelligence, military history, and politics to show how this simple idea offers important lessons for how we live our lives, select our leaders, run our companies, and think about our world.

Sketch Book

William Cumming began as a self-taught artist who grew up in Tukwila, a small town outside Seattle. In 1937, at the age of twenty, he met Morris Graves, who was at that time working in Seattle for the Federal Art project of the Works Progress

Administration. Through Graves he soon became part of the circle of friends who came to be known as the Northwest School of artists: Mark Tobey, then nearing fifty, the patriarchal leader of the group; Kenneth Callahan and his wife Margaret, a writer and critic who became Cumming's particular mentor; Guy Anderson, Lubin Petric, and others. He has taught for many years at the Art Institute of Seattle and Cornish College of the Arts. "Bill Cumming is at once an exceptional and successful regional artist and one of the most erudite, perceptive, and entertainingly cantankerous characters in this part of the world. [He] tells what it was like to be an artist in the Great Depression, tells tales out of school about such international luminaries as Mark Tobey and Morris Graves, tells how the Northwest School (of which he was the youngest member) developed, tells about the early success -- and ultimate failure -- of the Communist movement in the Far West, and shows how the political, economic, and cultural events of a half-century affected the life of a region and of its creative minority. Cumming is a natural raconteur, equipped with more literary wit and charm than most professional writers." -- Tom Robbins "Besides being one of the Northwest's best painters, Bill Cumming has certainly had a knack for being, historically speaking, in the right place at the right time. Beyond being good local history, his Sketchbook is a moving, sometimes chillingly perceptive, and certainly fascinating glimpse into the nature of artists themselves." -- Wesley Wehr

With over 10 million views and growing, Mark Crilley's YouTube drawing instruction videos have an enormous worldwide legion of fans and have been featured on sites such as Yahoo News and Reddit. In addition, Crilley is an accomplished graphic novelist. Now for the first time, he pairs both strengths resulting in a one-of-a-kind art instruction experience. Through the story of aspiring, overeager young artist-in-the-making David and his helpful, but often flustered mentor, Becky, readers gain a grounding in the basics of drawing and rendering, along with a helping of laughs and poignant entertainment. Each lesson builds off the previous, with sidebars at the end of each chapter that direct readers to tackle some of the very same drawing exercises that David has just completed. The sequential art format provides the perfect vehicle for these step-by-step lessons, and the Pixar-esque approach to the surrounding characters and story ensures an enjoyable experience that readers will want to revisit again and again.
