**Go Math!**

**Go Math!**

A fourth grade mathematics curriculum based on the Common core standards (c. 2010) and designed for use in Florida schools.

**Houghton Mifflin Harcourt Go Math Florida**

The new Holt McDougal Mathematics for middle school provides complete and comprehensive coverage of the Common Core State Standards with content and standards of mathematical practices documented throughout every lesson. The unique integrated assessment and intervention features, Are You Ready and Ready To Go On, demonstrate if the students have the prerequisite depth of knowledge to proceed with the chapter content. In order to be a good problem solver, students need a good problem-solving process. The process used in this book is: understand the problem, make a plan, solve, look back. - Publisher.

**Houghton Mifflin Harcourt Go Math Florida**

The IMPACT Mathematics, Teacher Edition support students' use of the IMPACT Mathematics Student Guide. Includes rubrics and anchor papers.

## **Go Math! Florida Mafs, Grade 3**

A first grade mathematics curriculum based on the Common core standards (c. 2010) and designed for use in Florida schools.

## **Go Math!**

A second grade mathematics curriculum based on the Common core standards (c. 2010) and designed for use in Florida schools.

## **Go Math! Floridastudent Interactive Worktext Advanced Mathematics 2**

This exciting new book explores the role of government, politics, and policy in American lives. Full of real life applications and scenarios, this text encourages and enables political thinking. The second edition has been updated to include recent developments in U.S. politics and government. This includes the description and analysis of the 2016 elections as well as the early Trump administration. Chapters have expanded coverage of immigration policy, environmental policy, economic policy, and global affairs (including counterterrorism policy). The text also includes analysis of racial issues in contemporary American politics and law. It also addresses questions about the state of the economy, jobs, and wages. Hyperlinks and URLs provide "deeper dives" into various topics and examples of comparative politics.

## **Go Math! Grade 4**

In this fascinating book, New Yorker business columnist James Surowiecki explores a deceptively simple idea: Large groups of people are smarter than an elite few, no matter how brilliant—better at solving problems, fostering innovation, coming to wise decisions, even predicting the future. With boundless erudition and in delightfully clear prose, Surowiecki ranges across fields as diverse as popular culture, psychology, ant biology, behavioral economics, artificial intelligence, military history, and politics to show how this simple idea offers important lessons for how we live our lives, select our leaders, run our companies, and think about our world.
