Gender Lens Investing, co-authored by Jackie VanderBrug, Managing Director and Joseph Quinlan, Managing Director and Chief Market Strategist, of U.S. Trust, Bank of America Private Wealth Management, is the first book of its kind to examine, in-depth the advantages of integrating gender into investment analysis. ### **Beyond Authority and Submission**

Domestic abuse is a national emergency: one in four Australian women has experienced violence from a man she was intimate with. But too often we ask the wrong question: why didn't she leave? We should be asking: why did he do it? Investigative journalist Jess Hill puts perpetrators – and the systems that enable them – in the spotlight. See *What You Made Me Do* is a deep dive into the abuse so many women and children experience – abuse that is often reinforced by the justice system they trust to protect them. Critically, it shows that we can drastically reduce domestic violence – not in generations to come, but today. Combining forensic research with riveting storytelling, *See What You Made Me Do* radically rethinks how to confront the national crisis of fear and abuse in our homes. 'A shattering book: clear-headed and meticulous, driving always at the truth'—Helen Garner 'One Australian a week is dying as a result of domestic abuse. If that was terrorism, we'd have armed guards on every corner.' —Jimmy Barnes 'Confronting in its honesty this book challenges you to keep reading no matter how uncomfortable it is to face the profound rawness of people's stories. Such a well written book and so well researched. *See What You Made Me Do* sheds new light on this complex issue that affects so many of us.'—Rosie Batty

### **Never Let Go**

Without strong proof, policy advocates along with some scholars have causally linked declines in juvenile offending and incarceration with evidence-based and rehabilitation-oriented policy reform. Such studies have called for a shift back to rehabilitative ideals augmented by innovative strategies that emphasize cultures of care, and in the cases of system-involved girls, 'gender-responsive' programs, anchored in feminist literature. These programs have also caught the attention of feminist scholars who cast doubt on both their design and implementation. Gendered Injustice offers a unique contribution to the latter line of scholarship, and critically examines claims of innovation, empowerment, and gender-responsivity in youth correction that currently dominate the field. Drawing on rich ethnographic

data, this book uncovers the reality of, and gives voice to, the experiences and continued mistreatment of marginalized girls housed in locked institutions in the US State of California. By providing detailed insight into the detention experiences and the pathways of several young women, this book draws stark comparisons between the lived experience of young women in detention with the official rhetoric of empowerment that dominates public discourse. This book reveals the ways in which institutional policies and practices are designed to neglect and, in many instances, re-victimize inmates. This is essential reading for those engaged in corrections, juvenile justice, gender and crime, and feminist criminology.

## **The Last Train to London**

What if you found out that your grandfather had been a Nazi SS officer? This is the confession that Martin Davidson received from his mother upon the death of demanding, magnetic grandfather Bruno Langbehn. The Perfect Nazi is Davidson's exploration of his family's darkest secret. As Davidson dove into his research,

drawing on an astonishing cache of personal documents as well as eyewitness accounts of this historical period, he learned that Bruno's story moved lock-step in time with the rise and fall of the Nazi party: from his upbringing in a fiercely military environment amid the aftermath of World War I, to his joining the Nazi party in 1926 at the age of nineteen, more than six years before Hitler came to power, to his postwar involvement with the Werewolves, the gang of SS stalwarts who vowed to keep on after the defeat of Nazism. Davidson realized that his grandfather was in many ways the "perfect Nazi," his individual experiences emblematic of the generation of Germans who would plunge the world into such darkness. But he also realized that every fact he uncovered was a terrible truth he himself would have to come to terms with

strength of ginkgo trees, thunderstorms, the Everglades, the ocean, the Miami sun. Here too is a whole woman's body, which, once she discovers she is never separate from the loving silence on which this good earth turns, becomes something so much greater than what she endures. And so do we."--Rebecca Gayle Howell "Perhaps you think you have a sense of what it is to be a survivor. Or perhaps, like me, you are one. But let me tell you: no familiarity with trauma will prepare you for the singular world of Avery M. Guess' book, steeped as it is in a Florida childhood of Spanish moss and sea cucumbers, armadillos and bats, the whole place hurricane-wrecked, reeking of marine debris, the flooded carpet replaced by a bright red shag in which a father creeps across to his daughter's bed at night. Here you have not a story of recovery but the day-by-day blast of fire it takes to choose life, or more accurately, to reclaim a body that's been heisted, so much so that to feel anything a return to the body's animal self is the only thing that works--sometimes by cutting but also by slipping into the skin of an alligator or growing antlers where her mother's nails broke off in her scalp. Reader, I swear to you--no book, not since I first found Sharon Olds or Linda McCarriston or Rachel McKibbens--has scorched my heart with such furious beauty."--Nickole Brown "THE TRUTH IS--an astonishingly powerful debut collection by Avery M. Guess--holds the multiple facets of trauma up to the light with a piercing, rainbowed clarity. These are poems that sensitively unfold legacies of childhood sexual abuse and mental illness with fierce candor, while simultaneously performing the magical alchemies of transforming pain into riveting art. Linguistically taut, and imagistically deft,

these lovely and harrowing poems linger and haunt. If you are a survivor, this is a book that will make you feel seen. If you are not a survivor, this is a book that will help you to see. Avery M. Guess is a stunning poet with a gorgeous talent, and a generously capacious heart."--Lee Ann Roripaugh "Avery Guess's debut collection of poems THE TRUTH IS is a brave document of survivorhood. The poems bear witness to childhood domestic & sexual violence, and ask the reader to listen with compassion, love, and tenderness. Formally varied, at turns, spare, narrative, and fantastical, the poems move with agility through possibility while refusing easy answers. Guess's book offers a necessary testimony for our times."--Cathy Linh Che "It is impossible to read the poems in this collection without taking a breath after each one, calculating everything at stake. THE TRUTH IS dismantles our tidy narratives--its poems thrash with honesty, renouncing shame while demanding we, as readers, help carry the load. It challenges us to put more effort into the terms: witness, survivor, risk, and reckoning."--Rachel McKibbens

But over the course of one summer, a miracle performed by Wren's father quickly turns to tragedy. As the order of her world begins to shatter, Wren must uncover the truth of her father's mysterious legend and her mother's harrowing history and complex bond with her best friend. Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable

standards, and promote best practices with consistent application. Strengthening Forensic Science in the United States: A Path Forward provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. Strengthening Forensic Science in the United States gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.

National bestseller A Historical Novels Review Editors' Choice A Jewish Book Award Finalist The New York Times bestselling author of *Beautiful Exiles* conjures her best novel yet, a pre-World War II-era story with the emotional resonance of *Orphan Train* and *All the Light We Cannot See*, centering on the Kindertransports that carried thousands of children out of Nazi-occupied Europe—and one brave woman who helped them escape to safety. In 1936, the Nazis are little more than loud, brutish bores to fifteen-year old Stephan Neuman, the son of a wealthy and influential Jewish family and budding playwright whose playground extends from Vienna's streets to its intricate underground tunnels. Stephan's best friend and companion is the brilliant Žofie-Helene, a Christian girl whose mother edits a progressive, anti-Nazi newspaper. But the two adolescents' carefree innocence is shattered when the Nazis' take control. There is hope in the darkness, though.

Truus Wijismuller, a member of the Dutch resistance, risks her life smuggling Jewish children out of Nazi Germany to the nations that will take them. It is a mission that becomes even more dangerous after the Anschluss—Hitler’s annexation of Austria—as, across Europe, countries close their borders to the growing number of refugees desperate to escape. Tante Truus, as she is known, is determined to save as many children as she can. After Britain passes a measure to take in at-risk child refugees from the German Reich, she dares to approach Adolf Eichmann, the man who would later help devise the “Final Solution to the Jewish Question,” in a race against time to bring children like Stephan, his young brother Walter, and Žofie-Helene on a perilous journey to an uncertain future abroad.

I never wanted a mate. Until I was put in chains. Strapped down. And claimed. I always believed I could analyze any situation until I found a solution. Solve any problem if I just applied my brain. I went to university, studied science and told myself my academic cocoon would protect me from the alphas dominating our society. I was wrong. No textbook prepared me for my meeting with test subject 351. The biggest, scariest alpha on death row, hauled into my lab to uncover how to control the beast of a man. How to make him submit. Mold him into a weapon. But there is no controlling the feral alpha, and no logic strong enough to save my mind once he unleashes his fury on my body. Once he claims me. Obsession is the

first book in Nora Ash's second suspense-filled Omegaverse serial, Feral. Please note: This series gets dark, and it gets dirty. If you don't enjoy your romance scorching and your alphas rough & dominant, give this book a pass.

Undetected by law enforcement, a vicious killer has been hunting women, using genetic data to select and stalk his targets. Uncovering the murkiest corners of the dark web, Jack races to find and protect the last source who can lead him to his quarry. Tim Donovan is a Catholic priest with a guilty conscience—though not in the way you'd guess. And Katherine Donne is a Parisian socialite who long ago kicked her

self-respect to the curb—for good and for ill. And much closer, we have a group of men whose fortunes, graying temples and positions in life are distinguished and enviable. But their morals? Anything but. And that's where Evan Reed comes in. Evan (short for Evangeline) is a highly principled political operative with an imperfect past, tasked with uncovering compromising material on a rotten judge up for nomination to the U.S. Supreme Court before he can be rushed through confirmation. Evan knows it won't be simple to find damaging information against the judge because he's been vetted many times before. When Evan pulls the string after an interview with a cryptic madman, she finds herself struggling to solve a puzzle that gets more complex by the hour. And where crime, money, conscience, and greed come together, danger is sure to lurk. In this sequel to *Dust*, Ann McMan takes the reader on an intense journey into a world that lies just beneath the thin veneer of civilization—a world teeming with power struggles and warped desires, and a subculture of promises made, kept, and broken. As Evan pushes further into peril, her personal life sparks into flame with the increasing presence of the ravishing Julia Donne, a book publisher with a progressive bent and troubling questions about her late father. McMan's specialty of intertwining a hot romance into heart-pounding suspense just keeps getting better and better.
