The Shadow of the Wind

A masterpiece of historical fiction and "a journey of extraordinary riches" (New York Times Book Review), *War and Remembrance* stands as perhaps the great novel of America's "Greatest Generation." These two classic works capture the tide of world events even as they unfold the compelling tale of a single American family drawn into the very center of the war's maelstrom. The multimillion-copy bestsellers that capture all the drama, romance, heroism, and tragedy of the Second World War -- and that constitute Wouk's crowning achievement -- are available for the first time in trade paperback.

Louise Lee Hsiu, an award-winning Taiwanese writer who had published ten books in Taiwan before moving to Canada in 2002. Because she wants more English-

speaking people to understand her home country Taiwan, she has translated Penghu Moon in the Well from Chinese to English. In fact, it was this book's financial success that enabled her to immigrate to Canada. The novel begins in Waian Penghu, Taiwan, the place of her parent's birth, and then shifts to the Taiwanese port, Kaohsiung, when her parents move there. In 1895, Ch'ing Dynasty was forced to sign the Treaty of Shimonoseki, ceding Taiwan and Penghu to Japan, and so this historic event forms the background of Penghu Moon in the Well. The character, Lee Lian-Zi, who embodies the author herself, narrates the lives of four generations of two Penghu families. There are novels that present tragic epic histories and others that portray the loving bonds that sustain families, and this one is both. Below are four comments about this book: 1. This novel is outstanding. It fully reflects the historical time, social movement of each stage of Taiwan from the end of the Ch'ing Dynasty (1895) to the 1980's. It presents the details of daily public life and the distress of the people in Penghu under the rule of a foreign nation---Japan. The local history of Penghu Islands is the epitome of the whole historical situation of Taiwan - Dr.Ye, renowned Taiwanese historian and novelist. 2. It is very easy to learn about the history of Taiwanese people in Chinese textbooks, but you won't learn Taiwan's authentic history, including that of Taiwan's Penghu Islands. Louise's family history originates in Penghu, so she can write authentically about the history of Taiwan and Penghu. Penghu Moon in the Well is not only a successful novel, but it also reveals actual historical events. - Wang Jiaxiang, Editor, Taiwan Times 3. "Louise's novel affirms that we are all

connected, for better or for worse, forever and ever. We travel in a never-ending circle because we want to return home, to the source, to the light at the end of the tunnel." - Barbara Ladouceur, Canadian Writer 4. "I learned a great deal about Taiwan and Penghu, the people, culture and history. The characterizations and descriptions bring us right into the place. I can see why this book has sold very well there. It has made me very curious to visit Penghu and Taiwan." - Jo Blackmore, Publisher, Vancouver Granville Island Publishing

Winner of the Penang Book Prize 2019 Nusantaria – often referred to as 'Maritime Southeast Asia' – is the world's largest archipelago and has, for centuries, been a vital cultural and trading hub. Nusantara, a Sanskrit, then Malay, word referring to an island realm, is here adapted to become Nusantaria - denoting a slightly wider world but one with a single linguistic, cultural and trading base. Nusantaria encompasses the lands and shores created by the melting of the ice following the last Ice Age. These have long been primarily the domain of the Austronesian-speaking peoples and their seafaring traditions. The surrounding waters have always been uniquely important as a corridor connecting East Asia to India, the Middle East, Europe and Africa. In this book, Philip Bowring provides a history of

the world's largest and most important archipelago and its adjacent coasts. He tells the story of the peoples and lands located at this crucial maritime and cultural crossroads, from its birth following the last Ice Age to today.

Desert Winds

From America's leading scholar of democracy, a personal, passionate call to action against the rising authoritarianism that challenges our world order--and the very value of liberty Larry Diamond has made it his life's work to secure democracy's future by understanding its past and by advising dissidents fighting autocracy around the world. Deeply attuned to the cycles of democratic expansion and decay that determine the fates of nations, he watched with mounting unease as illiberal rulers rose in Hungary, Poland, Turkey, the Philippines, and beyond, while China and Russia grew increasingly bold and bullying. Then, with Trump's election at home, the global retreat from freedom spread from democracy's margins to its heart. Ill Winds' core argument is stark: the defense and advancement of democratic ideals relies on U.S. global leadership. If we do not reclaim our traditional place as the keystone of democracy, today's authoritarian swell could become a tsunami, providing an opening for Vladimir Putin, Xi Jinping, and their

admirers to turn the twenty-first century into a dark time of despotism. We are at a hinge in history, between a new era of tyranny and an age of democratic renewal. Free governments can defend their values; free citizens can exercise their rights. We can make the internet safe for liberal democracy, exploit the soft, kleptocratic underbelly of dictatorships, and revive America's degraded democracy. Ill Winds offers concrete, deeply informed suggestions to fight polarization, reduce the influence of money in politics, and make every vote count. In 2019, freedom's last line of defense still remains "We the people."

Well of the Winds

For almost thirty years, twenty million people tuned in weekly to Charles E. Fuller and the "Old Fashioned Revival Hour." Sunday after Sunday, they listened over radio as the crowd, gathered in Long Beach Auditorium, wafted the strains of "Jesus Saves" around the world. In this firsthand account Daniel P. Fuller chronicles the life and work of his father, a man whose name is almost synonymous with gospel broadcasting and who founded the theological seminary that bears his name. The strong evangelistic urge that dominated Charles E. Fuller's ministry permeates every page of *Give the Winds a Mighty Voice*. The early broadcasts, the struggle for financial support to stay on the air, and the sermons full of fiery concern for the lost made Charles E. Fuller an unparalleled phenomenon in the history of religious radio. More than that, he was a personal friend to those who gathered to hear the old gospel preached by a man who believed the whole Bible. Daniel Fuller probes into the deep intentions that motivated his father to strive by faith, and often against seemingly impossible odds, to keep the broadcast going. Quoting from the thousands of letters that arrived daily, he recounts the response that millions made as they listened around the world. The biography of Charles E. Fuller is the story of a religious movement. As you read *Give the Winds a Mighty Voice*, you will relive both the disappointments and the victories of which so many people were a part. Christians in every land are part of the rich heritage bestowed by Charles E. Fuller through the medium of gospel broadcasting. Your memory of the tradition will be enriched and cherished as you read this moving account of his life and thought. Book jacket.
